In 2018, 20,930 Stora Enso employees had received training on the processes for reporting on violations thereof. The Business Practice Policy to complement the Code, which further sets out Stora Enso’s approach to ethical business practices and describes the processes for reporting on violations thereof. The Business Practice Policy was revised in 2016 in order to streamline and simplify policies and guidelines. Continuous e-learning, communication face-to-face training and sign-off are organised in order to ensure that these are part of the everyday decision-making and activities at Stora Enso.

Ethics and Compliance Management Committee
Stora Enso’s Ethics and Compliance Management Committee supervises and monitors legal and regulatory ethics and compliance-related policies, implementation and maintenance of processes and tools regarding the same, and concrete compliance issues and cases in the field of business practices. The Ethics and Compliance Management Committee consists of the General Counsel (chairman), CEO, CFO, Head of HR, Head of Communications, Head of Sustainability and Head of Internal Audit with the Legal Counsel dedicated to compliance matters being the secretary. The Ethics and Compliance Management Committee shall convene at least four times every year.

Audit
Stora Enso is committed to taking responsibility for its actions, to complying with all applicable laws and regulations where it operates, and to creating and maintaining ethical relationships with its customers, suppliers and other stakeholders. The Stora Enso Code is a single set of values defined by the Board of Directors, which constitutes the main source of guidance on the Company’s approach to ethical business practices, environmental values, and human and labour rights. These same values are applied wherever Stora Enso operates.

In 2011 the company established its Business Practice Policy to complement the Code, which further sets out Stora Enso’s approach to ethical business practices and describes the processes for reporting on violations thereof. The Business Practice Policy was revised in 2016 in order to streamline and simplify policies and guidelines. Continuous e-learning, communication face-to-face training and sign-off are organised in order to ensure that these are part of the everyday decision-making and activities at Stora Enso.

Stora Enso uses an index to monitor and evaluate employee perceptions of the work on topics covered by the Stora Enso Code. The index is based on employee responses to related questions in the annual employee survey. In 2018, this index improved to 85 (83 in 2017). The goal is to maintain this positive trend. By the end of 2018, 20,930 Stora Enso employees had received training on the Code.

In order to enhance the supervision and monitoring of legal and regulatory compliance-related policies and issues, Stora Enso has established its Ethics and Compliance Management Committee. In addition, Compliance Forums, comprising of heads of key functions (Ethics and Compliance, legal, finance and business functions, in divisions, group functions and Chinese operations) play an important role in risk assessment and monitoring compliance within their respective areas. The Compliance Forums use the Ethics and Compliance Self-Assessment Tool (T.E.S.T.) to give them a better overview of the progress their units are making in policy implementation, compliance measures taken, and possible risks and issues in compliance. Results of the T.E.S.T. are covered in Compliance Forums and action plans developed and followed up on accordingly.

Stora Enso’s employees are encouraged to report any suspected cases of misconduct or unethical behaviour to their own supervisor, or to Human Resources or Legal functions. Employees may also confidentially report their concerns to the Head of Internal Audit. Stora Enso uses an additional external service through which employees globally, and in certain locations also external stakeholders, can anonymously report potential non-compliance cases by phone, mail, or online. This service, which covers all of Stora Enso’s units, is available 24/7.

Insider administration
The Company complies with EU and Finnish insider regulation as well as the guidelines of Nasdaq Helsinki Oy. The Company’s internal insider guidelines are published and distributed throughout the group, Stora Enso legal function and the General Counsel is responsible for the procedures relating to insider administration, including monitoring compliance with applicable regulation, keeping of insider lists and internal training. The Company has established an Inside Administration Board that is responsible for monitoring and internal training. The Company also keeps a list of persons that are involved in the preparation of interim reports and financial results, which is approved by the General Counsel (Closed Period List). Persons included in the list are, e.g., members of the division management teams, members of Financial Communications and Investor Relations as well as the heads and certain team members of Treasury, Group Accounting and Controlling and Legal.

Persons, who participate in the development and preparation of a project that constitutes inside information, are considered project specific insiders. A separate project-specific insider register is established when required by the decision of the General Counsel or Assistant General Counsel.

The insider guidelines do not permit Stora Enso PDMR’s or persons involved in the preparation of interim reports or financial results and entered into the Closed Period List to buy or sell any of the Company’s securities (i.e.shares, options and synthetic options) during the closed period defined below or when they possess information that could have a material impact on the Stora Enso share price.

During closed periods, Stora Enso PDMR’s or persons entered into the Company’s Closed Period List are not allowed to trade in Company securities.

Internal control and risk management related to financial reporting
Internal control over financial reporting
The system of internal control related to financial reporting in the Stora Enso group is based upon the framework issued by the Committee of Sponsoring Organizations (COSO) and comprises five principal components of internal control: the control environment, risk assessment, control activities, information and communication, and monitoring.

The internal controls related to financial reporting are designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with applicable laws and regulations, generally accepted accounting principles and other requirements for listed companies.

Control environment
Stora Enso’s control environment sets the tone of the organisation providing the company purpose and values, policies, processes and structures as a foundation for carrying out internal control across the organisation. Stora Enso has a formal Code that sets forth its rules. To complement the Code, Stora Enso has a Business Practice Policy, which further sets out Company’s approach to ethical business practices and describes the processes for reporting on violations thereof. All employees are expected to comply with the Code and the Business Practice Policy. Continuous e-learning, face-to-face training and sign-off are organised in order to ensure that these are part of the everyday decision-making and activities at Stora Enso.

The Board, supported by the Financial and Audit Committee, has the overall responsibility for setting up an effective system of internal control and risk management. Responsibility for maintaining effective risk management and internal controls over financial reporting is delegated to the CEO. The GLT and senior management issue corporate guidelines in accordance with Stora Enso’s policy management process. These guidelines stipulate responsibilities and authority and constitute the control environment for specific areas, such as finance, accounting, investments, purchasing and sales. These responsibilities have been described in Stora Enso’s Risk and Control Policy which also outlines the responsibilities of the first and second line of defense. Group Internal Control function, under the CFO’s supervision, is responsible for group-wide internal control governance and processes, whereas divisions, various support and service functions are accountable for operating effective internal controls.

Risk assessment
Stora Enso’s management specifies objectives relating to the preparation of financial statements. The company applies an annual process for assessing and monitoring risk to identify significant financial statements accounts and disclosures. Relevant objectives and risks for processes are identified and evaluated to determine Stora Enso’s minimum internal control requirements for all business units and support functions. The assessment of risks includes risks related to fraud and irregularities as well as the risk of loss or the misappropriation of assets. Information on the development of essential risk areas and executed and planned activities in these areas are regularly communicated to the Financial and Audit Committee. A comprehensive description of Stora Enso’s risk management can be found at storaenso.com/investors.

Control activities
Stora Enso’s control activities are the policies, procedures and organisational structures in place to ensure that management directives are carried out and that necessary action is taken to address risks related to the achievement of objectives relating to financial reporting. Stora Enso’s minimum internal control requirements are aimed at preventing, detecting and correcting material accounting and disclosure errors and irregularities and are performed on all company levels. They include a range of activities such as approvals, authorisations, verifications, reconciliations, reviews of operating performance, the security of assets and the separation of duties as well as general computer controls.

Information and communication
The Company’s information and communication channels support the completeness and correctness of financial reporting. For example, the management communicates information about Stora Enso’s financial reporting objectives, financial control requirements, policies and procedures regarding accounting and financial reporting to all employees concerned. The management also communicates regular updates and briefings regarding changes in accounting policies and reporting and disclosure requirements. Subsidiary and operational units make regular financial and management reports to the management, including the analysis of and comments on financial performance and risks. The Board receives monthly financial reports. The Company has internal and external procedures for anonymous reporting of violations related to accounting, internal controls and auditing matters.

The annual financial statements and the Report of the Board of Directors are reviewed by the Financial and Audit Committee and approved by the Board. The effectiveness of the process for assessing risks and the execution of control activities are monitored continuously at various levels. Information on the development of essential risk areas and executed and planned activities in these areas are regularly communicated to the Financial and Audit Committee. Monitoring involves both formal and informal procedures applied by management and processes owners, including reviews of results which are compared against the set budgets and plans, analytical procedures and key performance indicators. Remuneration Statement

This Remuneration statement describes Stora Enso’s main principles of remuneration and the remuneration paid to members of the Board of Directors, Chief Executive Officer (CEO) and other members of the Group Leadership Team (GLT). The first part of this report describes Stora Enso’s remuneration decision-making procedure and remuneration policy. The second part describes the implementation in 2018 (Remuneration Report).

The Remuneration statement has been prepared in accordance with the Finnish Corporate Governance Code (the “Code”). The Code is available at corpfinland.fi. Stora Enso also complies with the Swedish Corporate Governance Code (“Swedish Code”), with the exception of the deviations listed in Appendix 1 of the Corporate Governance Report. The deviations are due to differences between the Swedish and Finnish legislation, governance code rules and practices, and in these cases Stora Enso follows the practice in its domicile. The Swedish Code is issued by the Swedish Corporate Governance Board and is available at corporategovernanceboard.se.

Decision-making procedure

The shareholders at the AGM decide annually on the remuneration of the Board members (including the remuneration of the members of Board committees). The proposals for the AGM concerning the remuneration for the Chairman, Vice Chairman and members of the Board as well as the remuneration for the Chairman and members of the committees of the Board are prepared by the Company’s Shareholders’ Nomination Board, which is composed of representatives of the main shareholders of the Company as well as Board member representatives and described in more detail on page 3 of the Corporate Governance Report.

The Board appoints the CEO and approves his/her remuneration as well as the compensation of other GLT members. The Board’s Remuneration Committee prepares remuneration related matters and proposals for the Board and is further responsible for ensuring that management compensation policies are aligned with the Company’s objectives and shareholder interest.

Main principles of remuneration

Stora Enso remuneration principles – general overview

Stora Enso aims to provide a level of remuneration that motivates, encourages, attracts and retains employees of the highest calibre. To maximise the effectiveness of the remuneration policy, careful consideration will be given to aligning the remuneration package with shareholder interests and best market practice. A fundamental element in the remuneration principles is the concept of pay-for-performance, and an important aspect of Stora Enso’s approach to remuneration is to look at the total remuneration provided to employees. Stora Enso’s total remuneration mix consists of:

- annual fixed salary
- variable pay components as short-term incentives (cash) and long-term incentives (shares when applicable)
- long-term employee benefits (pension, medical and health benefits)
- other benefits (car, housing, etc. when applicable)

Regular external benchmarking is crucial to ensure that compensation levels are competitive with the external marketplace. The marketplace is defined as those peer companies with whom Stora Enso competes for recruiting talents and retention of current employees for similar positions. The market will vary depending on functional area and level of the positions concerned.

Compensation review is an annual process with the aim to ensure that Stora Enso employees are being rewarded in accordance with our Remuneration Policy and local regulations, such as labour laws and collective agreements.

The GLT annually reviews the performance and potential ratings, as well as the succession planning of its top management in order to secure global principles with local applications.
Board member remuneration principles

Remuneration of the Board of Directors is decided annually by the shareholders at the AGM. The AGM in 2018 resolved in accordance with the proposal of the Shareholders’ Nomination Board that the members of the Board of Directors be paid the following annual remuneration for their term of office expiring at the end of the AGM 2019:

- for the Chairman of the Board of Directors EUR 175 000
- for the Vice Chairman of the Board of Directors EUR 103 000, and
- for other members of the Board of Directors EUR 72 000 each

The Board members shall use approximately 40% of their annual Board member remuneration to purchase Stora Enso’s R shares from the public market and the purchases shall be carried out during the two weeks following the AGM. The Company has no formal policy requirements for the Board members to retain shares received as remuneration. In addition, the AGM decided that the following annual remuneration be paid to the members of the Board Committees:

- for the Chairman of the Financial and Audit Committee EUR 20 600, and
- for the members of the Financial and Audit Committee EUR 14 400 each.

- for the Chairman of the Remuneration Committee EUR 10 300, and
- for the members of the Remuneration Committee EUR 6 200 each,
- for the Chairman of the Sustainability and Ethics Committee EUR 10 300, and
- for the members of the Sustainability and Ethics Committee EUR 6 200 each.

CEO remuneration principles

The CEO has been employed by Stora Enso since 1 August 2012 and assumed the position as CEO on 1 August 2014. He has a notice period of six months with a severance payment of twelve months salary on termination by the company but with no contractual payments on any change of control. The CEO’s benefits include pension provisions. The CEO’s pension plan consists of collectively agreed pension plan in Sweden (FTP2) and a defined contribution (DC) top up pension plan. Contributions to the DC plan in the interval 20–30 Income Base Amounts (IBA; one IBA was 62 500 SEK in 2018) is 23%, contributions above 30 IBA is 35% for the salary the CEO had prior to assuming this position and 39% on the salary increase amount received when assuming the position as CEO. The retirement age is sixty-five years.

Short Term Incentive (STI) programme for CEO

The CEO is entitled to a STI programme decided by the Board each year giving a maximum of 75% of annual fixed salary. The STI for 2017 and 2018 was based 70% on financial measures and 30% on Individual Key Targets.

Long Term Incentive (LTI) programmes for CEO

The CEO participates in 2016, 2017 and 2018 share based LTI programmes. The programmes have three year targets and vest in one portion after three years. Three quarters (75%) of the opportunity in the 2016 and 2017 programmes is in Performance Shares, where shares will vest in accordance with performance criteria proposed by the Remuneration Committee and approved by the Board of Directors. One quarter (25%) of the opportunity is in Restricted Shares, for which vesting is only subject to continued employment. The opportunity under the 2018 programme is in Performance Shares only.

GLT remuneration principles

GLT members in Stora Enso receive a monthly salary, which in addition to a salary payment includes customary fringe benefits, such as mobile phones and cars. GLT members further have the possibility to receive yearly awards in the Company’s short term and long term incentive programmes for management.
In accordance with their respective pension arrangements, GLT members may retire at sixty-five years of age with pensions consistent with their respective pension arrangements.

Short Term Incentive (STI) programmes for GLT other than the CEO

GLT members have three-year targets and vest in one portion after three years. The vesting percentage is 100% of the number of shares granted.

The opportunity under the 2018 programme is in Performance Shares, where the shares vest in accordance with performance criteria proposed by the Remuneration Committee and approved by the Board of Directors.

The financial success metric in the Performance Share programme is 3-year EVA (Economic Value Added) and EPS (Earnings Per Share) for the Stora Enso Group.

GLT remuneration excluding CEO

The total compensation for the GLT members excluding CEO in 2018 amounted to EUR 9 259 000 including annual salary, customary fringe benefits (such as mobile phone) STI and LTI programmes, and pension costs.

The number of GLT members was 12 at year end 2018, including also the CEO.

Under the 2018 LTI programme, GLT members (in GLT at year end) can potentially receive a value corresponding to 211 410 shares before taxes, assuming the maximum vesting level during the three-year vesting period (2018–2020) is achieved. Total number of shares actually transferred will be lower because a portion of shares corresponding to the tax obligation will be withheld to cover the income tax.

The fair value of employee services received in exchange for share based compensation payments is accounted for in a manner that is consistent with the method of settlement either as cash-settled or equity settled as described in more detail in Note 21 of the Financials 2018. For the equity settled part, it is possible that the actual cash cost does not agree with the accounting charges as the share price is not updated at the time of the vesting. The figures in the remuneration table refer to the share price at that date.

Appendix 1

Due to differences between the Swedish and Finnish legislation, governance code rules and corporate governance practices Stora Enso’s Corporate Governance deviates in the following aspects from the Swedish Corporate Governance Code:

Rule 1.3 The company’s nomination committee is to propose a chair for the annual general meeting. The proposal is to be presented in the notice of the meeting.
- According to Finnish annual general meeting (AGM) practice, the Chairman of the Board of Directors opens the meeting and proposes the chairman. The proposed chairman is normally an attorney-at-law.

Rule 2.1 The nomination committee is also to make proposals on the election and remuneration of the statutory auditor.
- According to the Finnish Code, the Financial and Audit Committee shall make a recommendation on the auditor election for the Board, which shall give its proposal on the matter to the AGM.

Rule 9.1 The board is to establish a remuneration committee, whose main tasks are to monitor and evaluate the application of the guidelines for remuneration that the annual general meeting is legally obliged to establish, as well as the current remuneration structures and levels in the company.

Rule 10.3 No later than two weeks before the annual general meeting, the board is also to report the results of the evaluation required by bullets two and three of Code rule 9.1 on the company’s website.
- In accordance with Finnish law, the remuneration of the CEO and management is the responsibility of the Board of Directors. The guidelines for and information on remuneration are presented in this Corporate Governance Report and the company’s webpages.

Rule 9.6 The shareholders’ meeting is to decide on all share and share-price related incentive schemes for the executive management.
- The incentive schemes are established by the Board of Directors. If the programmes include the issuance of new shares or disposal of shares held by the Company then the programme will be subject to shareholder approval. Current programmes of the Company do not include such elements.
